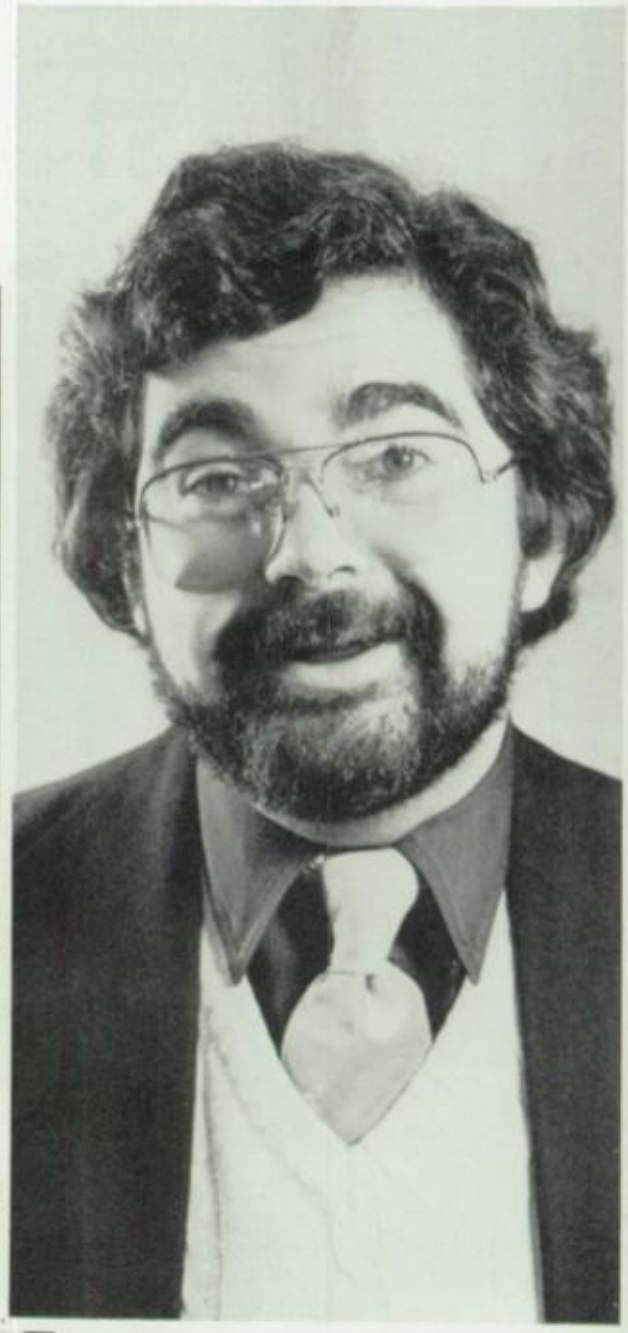
The Man Behind



"PLAYING THE LEAD . . ."

The Scenes

With his own unique style and poise, John Coon has given much of himself to both the faculty and student body of CHS. He is a special man, seemingly tireless and enthusiastic in class. Each class is taught as if it were a new adventure with life and a fresh crispness that only Mr. Coon can give.

Another facet of his talent is the vast amount of time and dedication he spends with the Theatre Company. He gives up weekends and afternoons for this activity which has meant so much to so many.

On a personal basis John Coon is a sensitive man who pursues many goals both theatrically and in education. His work at Saint Michael's College with Equity Theater makes him a qualified expert on professional theatre. In his classes he can share this knowledge and help the students understand the joys of the stage and of the human experience.

His personal contact with students, dedication to his work and enjoyment of life make John Coon an inspiration to all of us.

"Go in Peace . . ."

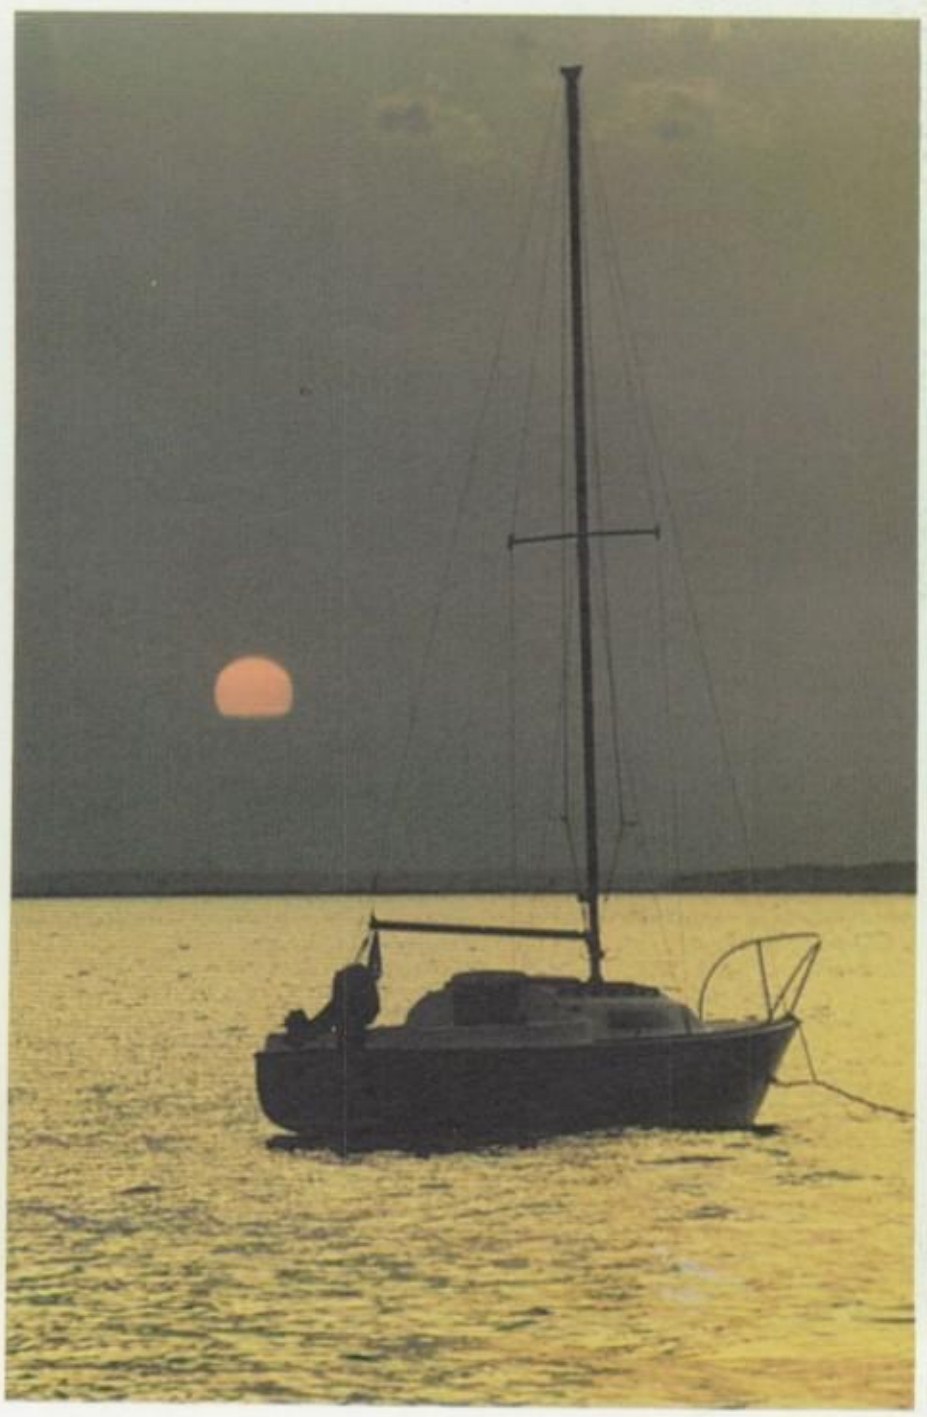
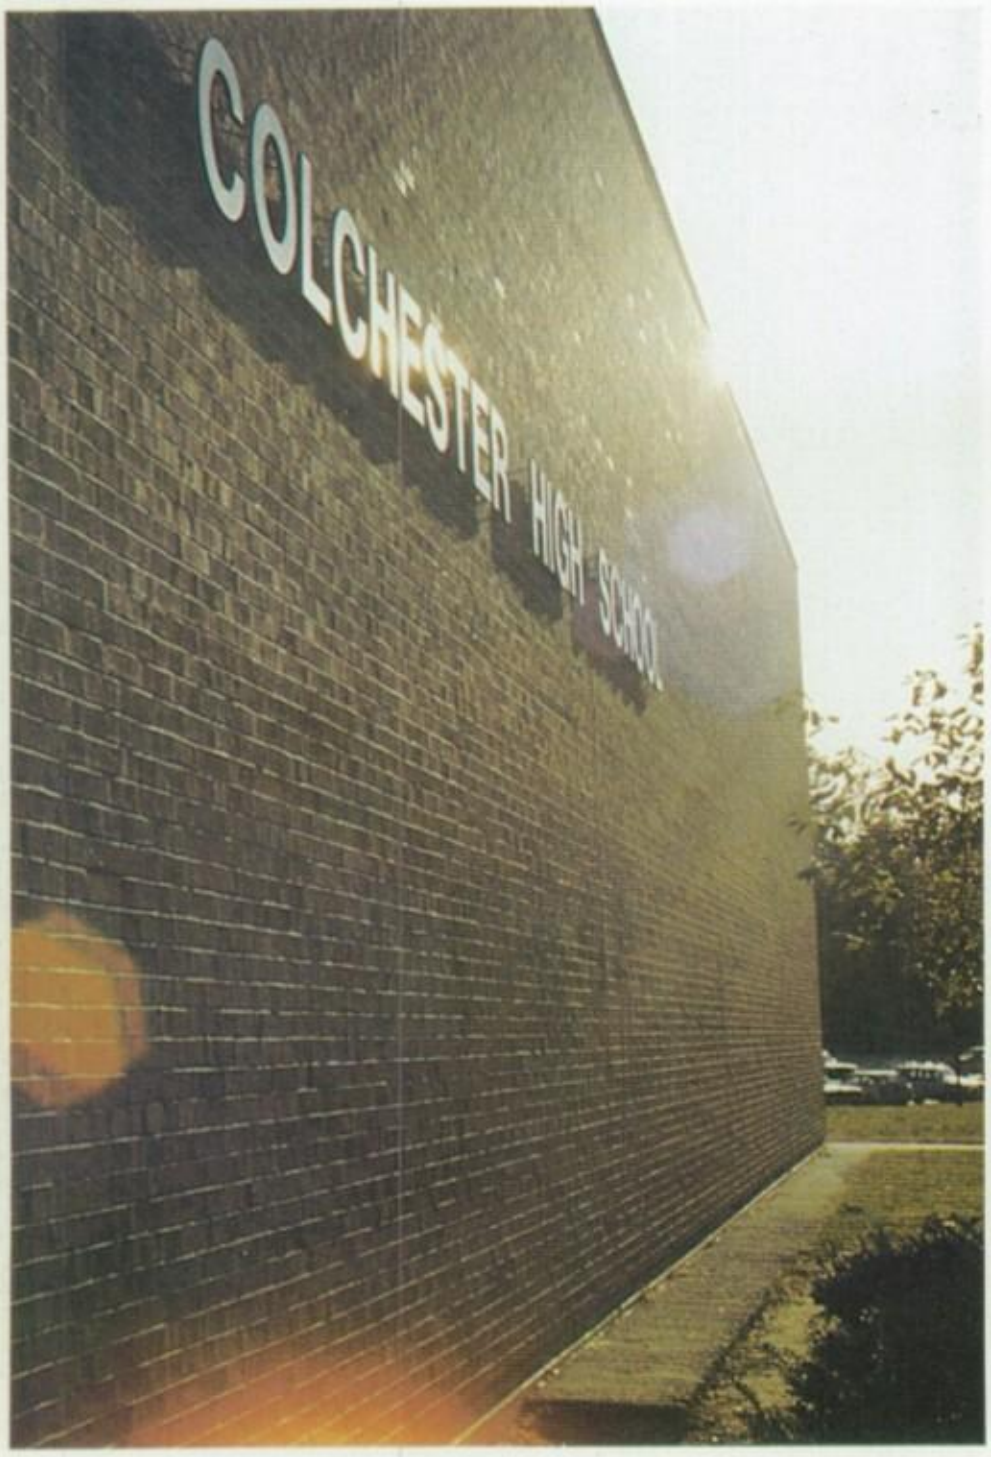
THE INDIVIDUAL'S VENTURE . . . .

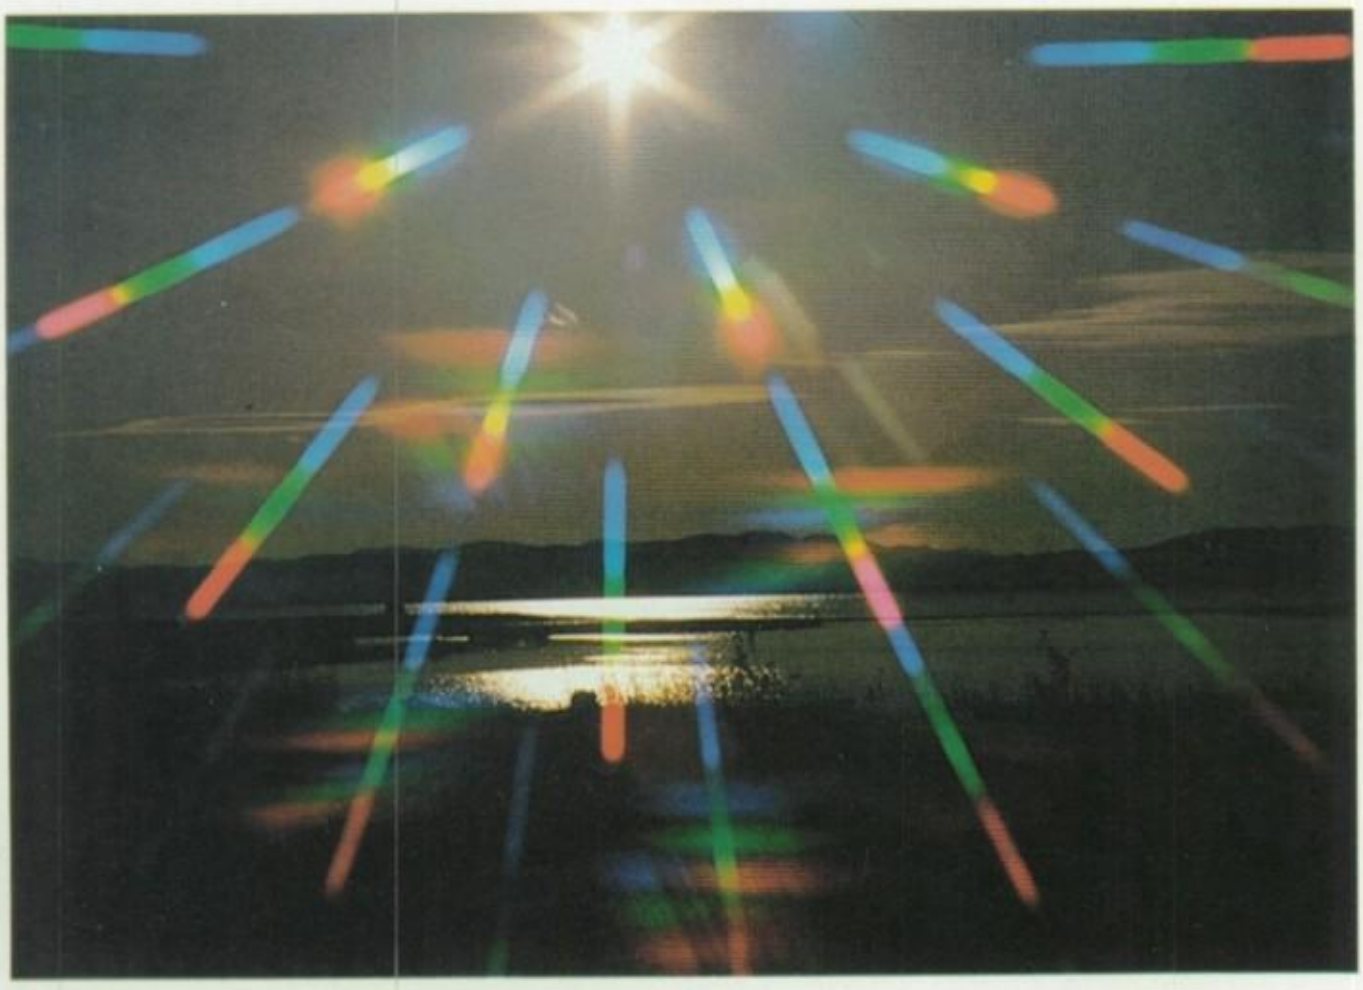
Walking in Twilight
Listening to the
Breaking waves

Yet the world is
still
And we, the
children
Each different,
special
and unique

Share a common
love
and care
For the future,
So near.







Watching Summer
Turn to Fall

Feeling the first
Autumn chill

Yet our hearts
are full
And our minds
are reaching

Each independent,
longing, questioning

Searching for our
own passage
To the Future, so
Frightening.

Stumbling, but not falling
  Still the world is near
  And we, the children
Each different, special, and unique
Shall find our own special way
To the future, so much our own.

WEEK OF SPIRIT

SPIRIT WEEK was held Oct. 18-23. The classes were judged by the % of participants, number of spirit links purchased, most creative and unique hall decorations and enthusiasm at the Pep Rally. Special days included HAT, FRIZZ AND SHADE DAY; TWIN DAY; PUNK & PREP DAY; AND BLUE AND GREEN/SPORTS DAY. The sophomore class lead the spirit link competition with 1,072 links purchased. The junior class won the hall decorating. The senior class won Hat, Frizz, and Shade Day; Twin Day, and Punk and Prep Day. The Classes of '84 and '85 were tied for points for the week and jointly awarded the coveted "Spirit Stick" and had their class names engraved on the Plaque. Next year, the Class of '87 will catch more of THE SPIRIT. Overall, it was an exceptional WEEK OF SPIRIT!!

HOME ECONOMICS CLUB

L. to R.—*Top Row:* Advisor, Mrs. Scanlon, J. Way, T. Rounds. *Middle Row:* S. Colby, C. Fennell, K. Agan, P. Paquette, C. Peeters, S. Hawkes, S. Merrick, K. Chambers, T. Wood, S. King, C. Hance, R. Young, A. Strong. *Front Center:* C. Mayo

The Home Economics Club evolved two years ago when students expressed interest in doing things related to family, family living and home economics. This year they participated in fund raisers to earn money to go on a trip to Montreal. Basically, the club gets together to have fun. They go ice skating, sliding, bowling, and have parties. At Thanksgiving and Christmas, they made gifts for grandparents. A new idea, "adopt a grandparent," enables the club to visit grandparents, send them cards and just be their friends.

FUTURE BUSINESS LEADERS OF AMERICA

L. to R.: D. Paquette, S. Phelps, S. Blow; Advisor, P. Jones; D. Beaudin, L. Burritt, C. McCarthy.

The Purpose of Future Business Leaders is to lead students into the business world by providing them with the opportunity to learn with actual "hands on" experience about the growing business community through various contests and events.

The Colchester High School Chapter of FBLA was chartered in 1981 and has attended all State Leadership Conferences, winning awards from honorable mention to first place in several categories.

By assisting students in establishing their occupational goals and facilitating the transition from school to work, FBLA teaches members how to strive to develop the qualities necessary in becoming responsible business leaders.

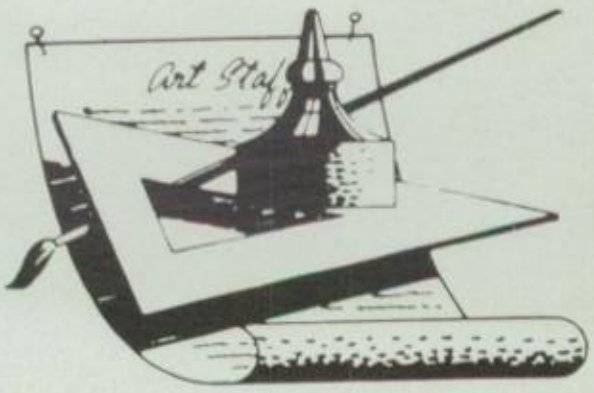
COLCHESTER HIGH TIMES!!!

Left Bottom: Joyce Way, Sharon Gagne, Aaron Kimball, Todd Garrett, Lee Flint, Chris Daignault. *Right Bottom:* Steve Vogl, Tammy Thompson, Lars Hedbor, Mike Acciavatti, Chris Reid

The staff of the school newspaper saw high times this year with the *Colchester High Times*, the product of many hours of hard work from a few devoted people. Meetings came on Tuesdays, and though many showed up to help at various meetings, Chris Daignault and Advisor, Mr. Long, were present at every single meeting. Newspapers came out for the first time in dry copy, containing sports, current events, music reviews, hot issues, a fiery gossip column (that luckily never mentioned names), a "choose your ending" story and a comic strip reminiscent of Dungeons and Dragons. The staff saw lots of work and equal success in their semi-regular issues. The staff saw paper turned into power. The staff saw people paying 5¢ to read the school newspaper, a price needed to help pay for newspaper production. But most of all, the staff saw that amateur journalists were a respected medium in the student social force.



AND THE BAND PLAYED ON

Flute—P. Corcoran, L. Gloria, K. Lyford, A. Sears, S. Gagne, T. Hong, A. Furst, V. Pellegrini, M. Murphy, C. Riegel, W. Chicoine, D. Stough, T. Blondin; *Clarinet*—L. Oscsodol, K. Herrlich, A. Corcoran, C. Acciavatti, K. Cootware, L. McGill, J. Way, P. Pingert, K. Streich, L. Kiley, H. Vincent, K. Goss, J. Pinnette, S. Penrod; *Bass Clarinet*—L. Gagne, C. Reid, T. Thompson; *Bassoon*—L. McKinstry; *Oboe*—L. Redmond, W. Baker; *Alto Sax*—K. Hawkens, M. Cade, T. Garrette, P. Oscsodol; *Tenor Sax*—T. Matthews; *French Horn*—S. Vogl, A. Coyne; *Trumpet*—D. Goss, B. Allyn, S. Saia, M. Lane, P. Tilley, L. Racicot; *Trombone*—S. Redmond, T. Rounds, M. Schlichting, D. Wible; *Baritone*—D. Weigel, B. Cootware; *Tuba*—S. Mallabar; *Drums*—J. Trombley, K. Rounds, J. Hall, H. Maloney.

The Band had five concerts this year as well as an exchange concert with Pentucket Regional High School Newbury, Massachusetts.

The students who audition for All States District and New Englands have enlarged this year. The students audition (in competition) against other music students (instrumental) from all over Vermont. The students earning the highest scores attend a three or four day rehearsal and then perform in two concerts. All states this year are being held at South Burlington High School.

The purpose of the band is to learn and perform standard and classical band literature. They also provide a rehearsal and performance situation. The band has been in existence since the school was built in 1975.

Mr. Stewart Morash, the conducter, is continually exerting his time and energy in order to produce an outstanding and unique group of musicians.

Section Leaders: Steve Vogl, Lynn Redmond, Steve Redmond, Anne Sears, Dave Goss, Pam Corcoran, Ken Hawkens, Jeff Trombley, and Laura Oscsodol.

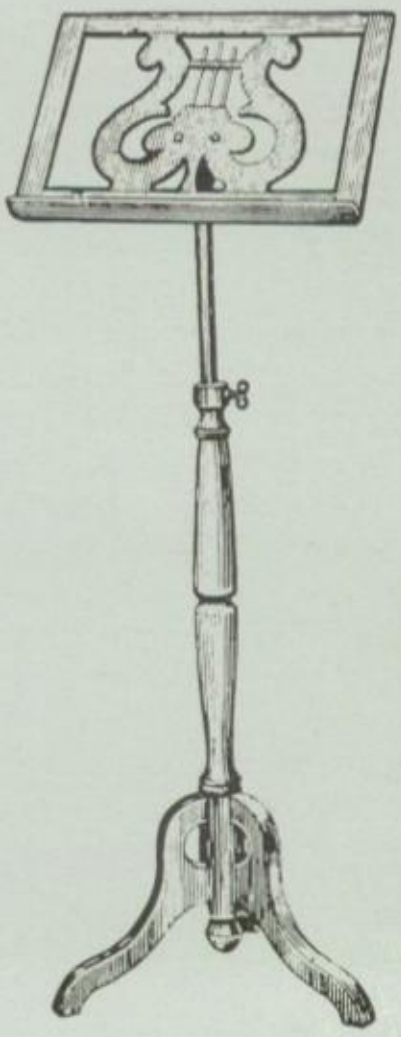
The students in senior chorus perform at concerts, festivals, and other scheduled events. The repertoire ranges from popular to classical music.

Entrance into the group depends on the student's ability to match a given pitch. The class meets five days a week. An agreement regarding commitment is used by all students joining Chorus.



NATIONAL HONOR SOCIETY

NATIONAL HONOR SOCIETY with glowing ideas and auspicious futures, the students in NHS have proven time and again why there should be an Honor Society. This group of Juniors and Seniors with grade point averages of at least 3.4 sold flowers at Christmas and helped with the ETV auction in the spring, but more importantly they serviced the school by tutoring however they could and by helping at graduation. These members are our lights at the end of the tunnel.

UPWARD BOUND

Upward Bound is designed for students with college potential but a need for improvement in grades. The program lasts through high school and includes summer as well as the school year.

The first-year summer program includes a two-week outdoor experience involving hiking, rappelling, and running. A five-week academic course follows the outdoor program. English courses, science and math, and a choice of photography and other electives are included.

After the summer is over there are Saturday meetings, after-school projects and get-togethers. During the second summer, participants don't hike, but go to Boston for a week instead. While there, students get a view of the city from a different perspective than the one at home. The final exercise is an expedition through the city with one other person.

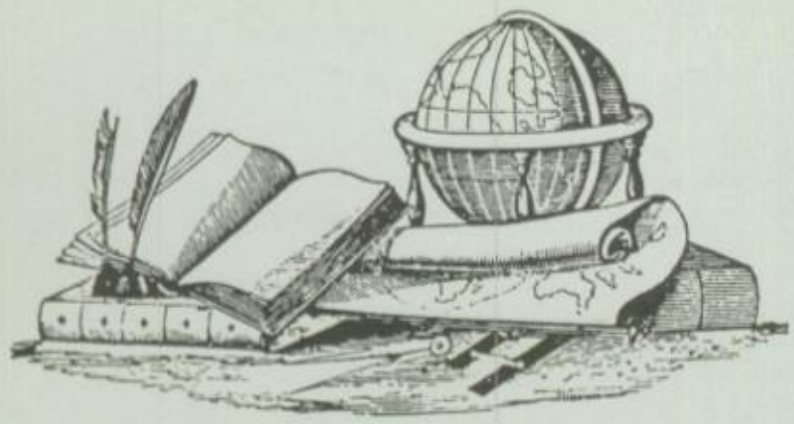
FRONT: L. Bergstein, Champ, M. Boucher. *MIDDLE:* J. Handy, L. Rabidoux, T. Maciora, B. Robinson, M. Hammond, M. Kirby, J. Keshavan, A. Michaud, G. Hall, K. George, Advisors E. Carvellas, L. Cloutier-Namdar. *BACK:* A. Gennari, C. Pierce, L. Dickinson, J. Keyser, B. Clapp.

Student Council remembers letterman jackets, a winter dance, spring flower sales, computer match, a new popcorn machine, spirit week, Champ, and the helping of a needy child. CHS itself remembers the good times and happy spirit that the Student Council promotes. Thanks to the Student Council CHS has become a memorable experience.



SCHOLARS BOWL

This is the first year St. Michael's College has sponsored the Scholars' Bowl. Colchester is one of 32 teams entered. The Scholars Bowl team consists of four students and two alternates. They compete against other schools and their goal is to win the State Championships. They have fun with the practices and enjoy the competition.

Coach, Betty Carvellas; Asst. Coach, John Devino. *L to R:* M. Boucher, D. Solomon, D. Cootware, J. Keshavan. Alternates—A. Gennari, T. Kingsbury

MATH TEAM

The Math Team consists of 14 hardworking students. Once a month, students and advisor meet to practice problems in 5 areas; Arithmetic, Geometry, Algebra, Advanced Math, and Team. Approximately every six weeks, students meet with 11 other high schools and compete in these areas. Colchester, usually places third out of twelve schools.

Another competition arising from the Math team is the Atlantic-Pacific Math League. 300 nationwide schools participate in this 30 minute test. Anyone, not just math team members, can take part in this test.

Overall, the math team involves about 4 hours of work a month. Colchester's rank within statewide and nationwide competitions is a result from the (hardworking, talented) students.

GUIDANCE AIDES

Guidance aides run errands for Mrs. Roach and the Guidance Counselors. They answer the phone and take messages when Mrs. Roach is out. They help file materials and perform a variety of other clerical duties. We couldn't get along without them!

OFFICE AIDES: *Left to Right*—D. McGraff, B. Brosseau, T. Drinkwine, A. Poquette, C. Mayo; Mrs. Thompson, Secretary; S. Sourdiff, K. Goulette; Mrs. Ross, Secretary.

OFFICE AIDES

Office aides help Mrs. Leo, Mrs. Thompson and Mrs. Ross by organizing attendance folders, recording attendance, organizing files, answering the telephone and running various errands. They have proven to be an asset with their help. By helping in the office they get ¼ of an elective credit per semester or a credit every two years.

LIBRARY AIDES

Library aides stamp passes, help out in the AV room, sign magazines, books, and vertical files in and out, put books and microfilms back in proper places and they even help process new books.

ARTISTES!

The Art Club was formed in 1975. It is open to all students, not just students in Art Class. One of the goals of this club is to introduce the various arts to people who aren't taking Art courses in school. Members meet once a week for a workshop. At these workshops, they make gifts and various other art projects through silkscreening, pottery, watercolor, photography, color video, drawing and acrylic art. Members exchange these gifts with one another at Christmas.

Enter Mr. Coon, the director, stage left. Enter President Pete Ciardelli, V. Pres. Amy Gennari and Secretary Ken Hawkins, stage right. Enter in a histrionic spree from every part of the stage the other members of the Drama Club. The Drama Club, the largest non-athletic extracurricular organization in the school, is definitely something which we, CHS, could not do without. An empty stage is just polished wood, but under the guidance and direction of fun-loving Mr. Coon, the Drama Club turned that level of wood into a world of its own. They accomplished this during the year with THE MOUSETRAP, an Agatha Christie play; BAREFOOT IN THE PARK by Neil Simon; and THE CRUCIBLE which was done for regional competions. They also did a musical in the spring. No matter what they do or when, the Drama Club manages to make it a theatrical success.

The Colchester High School staff has produced eight quality yearbooks so far and this is its ninth. Our purpose is to produce a quality book that can be used as a memory book, a reference book, and a history of the year.

For the first year the Venture staff is receiving a credit for its hard work! Our goal this year was to focus on the individuality of the school.

This is the first year ever C.H.S. has put in color and has had even more pages. The staff this year has worked extremely hard to produce the best book for you.

The advisors, Mrs. Moore and Mrs. Allyn, have always been there when we had questions, and we had alot of them! They are the backbone of the staff and without them we would have been lost.

1986 . . . A DOOR TO THE FUTURE

A foundation of spirit and pride
Heavy beams of self respect
A wall of good times; parties and laughs
A wall of ambitions; a future expedition
A wall of imagination; abstract ideas
And a wall of knowledge; years of books
And, at last, a peaking roof of triumph,
With a small banner, waving '86.

Our JV team has had a season this year similar to the Varsity. They have the same record, 6-10. A large part of our JV team this year is made up of Freshmen which should prove to be a solid foundation for Varsity teams in the years to come.

—by Robert Oram, III

"No fouls, Lakers!!"

The varsity got off to a slow start this year. They are playing a more competitive schedule than ever before, and started the season against three Metro division teams. Our early season play was plagued by inconsistency.

The varsity record was 6 and 11. This record is, however, deceiving as all our games were close. Three games were lost by only 1 point and one was in overtime.

In our first game against Middlebury, the Lakers won by 7 points in overtime. In this game, Matt McKenzie scored 37 points. This broke Colchester's previous record.

The Laker play constantly improved.

"Here's the plan!"

The varsity girls' basketball team stuck through a tough season this year ending with a record of 7 and 13. The highlights of the season were the double victories of the JV and Varsity teams. They started off their season and ended their season by defeating Burlington. Kim Thibault, Kristin Esty, Tarah Friend, Laurie Ouellette, and Lois Dickinson are the seniors lost to next year's team, but as the years go by, a younger team will take over and do very well.

When one thinks of gymnastics, grace, beauty and coordination all come to mind. Colchester's girls' gymnastics team has all these qualities and more. Under the leadership of Christina Anger, known to the girls as "Nini", their talents and abilities have shone through. Kim Dietl and Mary Ellen Edwards have been the top scorers this season, leading their team to six victories and two losses. Other scorers include Mary Beth Hammond, Tracy Maciora, Julie Sorrell, and Audra LeBaron. They've come a long way and there is much potential for the upcoming years. We're proud of them!

This was a rebuilding year for the girls' team due to the loss of several key seniors. This young team has also had several problems with ill or injured skiers. Despite these disadvantages, the girls have had a successful season, finishing third in the district meet.

Although the team again faces the loss of seniors such as Lisa Yandow, Brenda Rashleigh and Amy Gennari, they should remain strong due to such immerging talent as sophomore Heidi Streeter and freshman Holly Vincent.

"Nobody going to slow me down!"

The "A" Team!!

THE WINNERS!

Once again the Boys' Ski Team has posted an impressive season, winning every meet in which they've competed. Under the guidance of Coach Mallory, the team has been led by top skiers D. Hugo, M. Hart, D. Robertson, and D. Brunelle to be top contenders for the State Title. Although illness has held back some team members, the team has more depth than ever before, according to Coach Mallory. The team promises to continue its success in future seasons.

LAKERS ARE DISTRICT AND STATE CHAMPS!

On Thursday, February 9, the CHS Boys' Cross Country Team skied their way to win the Northern District Nordic Championships at Breadloaf Campus in Ripton, VT. As defending champs from last year, they were easily winners with familiar speed and confidence of a team with excellent conditioning and preparation. The Lakers placed six skiers among the top 20. Dennis Robertson placed 5th; Dan Brunelle placed 7th, Mike Hark placed 10th, Dan Kotorman placed 17th, Andy Clapp came in 18th and Joe Doppman was 20th.

The relay team of Hart, Brunelle, Robertson and Hugo edged out Stowe in the 4 by 2.5 kilometer event by 37:57 to 38:57.

"Our success all season has been because we have a lot of depth and I think we showed that today," said Coach Mallory.

In the State Meet at Stowe, Dave Hugo placed 3rd; Mike Hart, 5th; Dan Kotorman, 9th; Dennis Robertson, 12th; and Dan Brunelle, 16th; to give the team their State victory. The relay team of Hart, Robertson, Brunelle and Hugo came in 2nd place.

Congratulations to Coach Mallory and the team!!

Advanced Studio gives the art student the opportunity to work independently at his/her own pace, refining and developing abilities in a major area of interest.

The Home Economics Department courses are directed toward making the quality of one's family and home life excellent. The student may learn about good nutrition, various cooking methods, fashion, fabrics and their care, sewing for self and others, child care with emphasis on an in-school, pre-school program, and the elements of interior design.

: THIS MEANS BUSINESS!

Business Education courses are for those students who have a desire to have a marketable skill upon graduation from high school and for those students who plan to continue their studies in any form of education at both two and four-year colleges.

Accounting, Law, and Economics help students desiring to work in private businesses as well as preparing them for work in small firms. Typing/Keyboarding is very helpful in the job market in areas requiring processing of words or data. Shorthand skills increase one's earning ability by $2,000 per year because of the special language arts skills learned in this course. These students know how to write letters properly and will be able to use their skills (a scarce one on the market) in a variety of jobs over a number of years.

Business students learn skills which will show immediate rewards on the job now and in the future.

EXPERTISE ACTION

The English Department prides itself on its ability to bring the widest spectrum of offerings to the entire student body. Teaching all students is a challenge which the English Department meets by offering courses which address not only the students' academic and skill needs but which also make English a meaningful experience. Nearly all classes are ability grouped.

Grade 9 teachers stress the basic skills and study techniques. Grade 10 English teachers offer speechmaking and some media study to the average students. Small remedial classes in grades 9 and 10 allow students with writing and reading problems to advance at their own learning rate. These teachers work closely with the resource room and reading teachers. A study skills and literature course to help 9th and 10th grade students who have failed English will be offered by the English teacher. Some motivated sophmores are enrolled in Advanced Placement American Literature, the first

Grade 11 English teachers offer courses in which advanced students may participate in American Humanities, taught jointly by a Social Studies and English teacher. Juniors and seniors who have either academic or personal difficulties may enroll in Alternative English, an individualized, contractural course.

Grade 12 English teachers have designed elective courses which evidence their expertise and meet students' academic and motivational needs.

The English Department is actively and constantly refining its methods and courses. In general, the English teachers see their role as one of teaching people first and subject matter second.

NOS AIMONS NOS PROFERSURES!

Foreign Language enrollment at Colchester High School is increasing rapidly. This year the number of students desiring to study a foreign language was so large that our department could not accommodate them. Next year we hope to have additional personnel to help us meet student needs.

This year the Foreign Language Department offers three years of French and three years of Spanish. We hope to offer Latin I and German I again next year.

Our curriculum is based on the four basic language skills: listening, speaking, reading, and writing. Level III provides a comprehensive grammar review, and introduction to literature, and continued emphasis on listening and speaking.

Students use audio-visual media frequently. They listen to tapes, records, and view short French programs on TV. Here students are recording a dialogue to improve their speaking skills. (top above).

LOGICAL PLANNING AND BUILDING

Woodworking courses at CHS are designed to make it possible for any student to succeed to the extent of his ability. The basic course teaches successful use of hand tools and machinery, while advanced courses encourage design and construction of furniture.

The metals courses include machining, welding, body and fender, sheet metal, etc. Emphasis is on "hands on" operations for developing individual skill. Welding or Power Mechanics courses offer opportunities to learn additional skills.

A series of courses in communications, drafting and photography begin with a "basis of industry" and continue with advanced courses in which students originate ideas which are expanded and developed into worthwhile projects. Graphic Arts and Photography permit the student to work on individual needs following the theme of communication through visual media. The Industrial Arts series expands into a intra-departmental course in 35 mm photography taught in conjunction with the Art Department.

COMPUTERS: THE KEY TO

The Math Department, through its many programs, strives to provide each student with the essential skills needed to meet his/her particular vocation.

There are essentially three tracks a student can follow. The basic track consists of General/Project Math, Math Lab, and Consumer Math. The vocational track consists of Industrial Math I, Industrial Math II, and Consumer Math. For those students interested in college, the track consists of Algebra I, Geometry, Algebra II, Advanced Math, and Calculus. The Department also offers courses in Trigonometry, Computer Math, and S.A.T. Math Review.

New courses are being considered in Computer Literacy and Geometry. The Department is always evaluating and improving the course curriculum guide. New approaches used in teaching Math have been initiated with the development of our Math Lab course, and

the use of the computer in General/Project Math.

Our direction for the coming year is to use the computer in more Math classes, and to give all students an opportunity to use the computer in some way.

The reason for this added attention to computers is that it is clear that computer literacy will continue to be a sought after tool. The opportunies in these hi-tech areas are growing quickly and the Math department is meeting these growing needs.

As the importance of Math grows, so does the boundaries of our Math department. With groups such as the Math Team and Scholars Bowl, Mathematics is made not only interesting, but also fun. This is crucial, for some students would turn away from this important subject otherwise. With efforts such as these, the teachers of CHS display their dedication to both students and the philosophy of their department.

THE JOY OF LISTENING.

Stuart Morash and Frank Whitcomb are both gentlemen devoted to the fine arts. Mr. Morash, in addition to directing the Colchester High School Band, gives private lessons to students looking for individual attention. Mr. Whitcomb directs the Chorus, the Junior High School Chorus, gives private lessons, and sings with the University of Vermont Choral Union.

The music department at CHS is unique because of its two-sided nature. Both Band and Chorus are courses of study, but they are also performing groups. In this way they provide education as well as performing quality music.

Students are challenged to compete in District, State, and New England auditions in order to qualify for these prestigious events. Although competitive, auditions give the musician an opportunity to test himself and his abilities.

As the fine arts grow at CHS, the Chorus and Band will continue to stand as solid parts of the program.

HEALTHY BODY, HEALTHY MIND.

The physical education department offers a wide range of activities. One activity is team sports which give students a chance to work together. Among these sports are volleyball, softball, and basketball. Individual and lifetime sports give students an idea of what they are capable of accomplishing throughout their life. Some of these include fencing, tennis, and racquetball. Colchester Outdoor Physical Education gives the students the opportunity to get out of doors during school hours and enjoy their surroundings as well as the sport. Canoeing and orienteering are examples of C.O.P.E. The one unique sports required of all students is Project Adventure which helps students gain trust in their classmates. The second level of Project Adventure requires more skill. In every element of physical education one theme stands out; healthy body, healthy mind. The purpose is not only sports, but getting to know yourself and learning about the world around you.

"ENTHUSIASM IS A CHARACTERISTIC OF THE FACULTY . . ."

The uniqueness ofthe Science Department is due to the diversity of individuals who make up the faculty. This diversity makes it possible to have a variety of courses from highly-structured physics and chemistry courses to outdoor-oriented life science.

Enthusiasm is a characteristic of the faculty, with much laboratory investigation as an integral part of all courses. This enthusiasm is reflected in the high number of students (approximately 700) who choose to take science courses.

In the technological world we are now a part of science becomes an important part of everyday life. The computer, for instance, has reshaped the American way of life. Our very own science department has not been left out, as it received a Franklin Ace 2000 strictly for its own use. With it, both faculty and students are able to explore the world of science with greater ease and enjoyment.

"USING THE SCIENTIFIC METHOD, NEW IDEAS ARE BORN . . ."

Instead of the traditional research paper, in some biology classes, students are offered the opportunity to explore the world around them with art. In cooperation with the Art Department; students design, sketch, and paint animals and plant in order to examine them in a visual sense. In this way students are taught to look more closely, question, and draw conclusions from their observations.

In each course, students are called upon to search for the answers to puzzling questions. Using the scientific method, new ideas are born; through experiments, these ideas are nurtured; through continued education they bloom into great "boquets" of knowledge.

"THE SOCIAL STUDIES INTEGRATES HUMAN EXPERIENCE . . ."

For more than 50 years social studies education has been in a constant state of flux. Today, against a background of controversy and debate, a working definition can be offered:

The social studies integrates human experience and knowledge for the purpose of citizenship education which implies membership in the American and the human community and the commitment to work effectively with diverse peoples and to accept differences in cultures, in values, and in responses to societal issues.

Traditionally the social studies draws its content from the disciplines of anthropology, economics, geography, history, political science, psychology, philosophy, religion and sociology. Because the social studies deals with the interrelationships and interactions of individuals in all aspects of society, past and present, it can provide youth with the knowledge, values and skills necessary for survival in the future.

"THE DEPARTMENT PROVIDES STUDENTS WITH RELEVANT INFORMATION, CONCEPTS, AND SKILLS . . ."

The Social Studies Department at Colchester High School consists of seven experienced and well-qualified teachers. School policy requires students to complete two years of Social Studies and IIth grade American History. Students in both required courses are divided into three ability levels, including an advanced-placement section in American History. One semester of Social Studies electives include Sociology, Major Conflicts, Issues and Answers, American Ethnicity, Study of Utopia, Revolutions in the Modern World, and Psychology; World History is a one-year elective. Approximately 625 students are enrolled in Social Studies courses.

The Department provides its students with relevant information, concepts, and skills which will enable them to function as informed, interested, and participating citizens in today's ever changing and complex society.

CHEERFUL PERSONNEL AID STUDENTS . . .

The Guidance Department is important to everyone at Colchester High School. The thrust of the department is to aid students in choices they have to make while in school, and making plans as to what is going to follow high school.

In order to help students help themselves, the Guidance Office added the Discovery II Information System in 1983. Through its use seniors receive general information about two and four year universities, as well as employment opportunities. One major element of the D II system was "the personal survey" which allows students to evaluate their own interests and abilities. The data made available from this survey is printed for the students, which makes it a useful tool.

Colchester High School is lucky to have a guidance office with such qualified, cheerful personnel!

REFER TO THE PAST, FUTURE, AND PRESENT . . .

The CHS Library/Media Center works constantly at enlarging its various collections to provide many different types of materials needed for research by our students and teachers. In addition to the book collection, we have a magazine collection, vertical file, a beginning collection of audiovisual materials and some computer software.

Many teachers incorporate the use of the new color video camera into courses along with TV and its materials. Three microcomputers are now available for use by teachers and students.

The Library/Media Center is available for use from 7 AM to 4:15 PM every school day and from 7 PM to 9 PM on Tuesdays and Thursdays. The evening hours are the result of our becoming an active branch of Colchester's Burnham Memorial Library this year. Many of their books have been added to our collection.

DEVOTION OF TIME AND ENERGY PAYS OFF . . .

Are you aware of the tremendous amount of work done by the secretaries at Colchester? Each day mountains of papers are collected, sifted, and organized. Without the professional devotion of our secretaries, it would be difficult even to receive an admission slip after an absence.

The C.H.S. secretaries do much more than paperwork. They are managers who devote time and energy to their positions. In the office Mrs. Thompson interrupts her her busy schedule to help students with a problem with lunch tickets. Mrs. Ross takes telephone calls from parents of students who forget permission slips. In the Guidance office, Mrs. Roach helps change a course or organize an appointment schedule. Mrs. Jan Leo, secretary to the department heads, keeps track of Basic Comps. Without the secretaries to keep things in order, the teachers and administration would have a much more difficult job.

The support staff is a crucial part of Colchester High School. The staff includes Mr. Wide, ISSUES Room Supervisor, Mrs. Wyman, Special Education, Miss Sheltra, Cluster Aide, and Mrs. Clark, School Nurse. Mr. Wise was hired to help students deal with the situations they must face when they are temporarily removed from the class for disciplinary reasons. Mrs. Wyman works with students in the Resource Room, helping them with areas of learning which they find most difficult. She is supported in her student support work by Mrs. Sanford and Mrs. Lehneman. Miss Sheltra works with students and Cluster teachers by checking student work and by taking extra study halls to free Cluster teachers for student conferences. Nurse Clark deals with all students and staff who are injured or ill during the school day. She is also a good listener when students need an extra sympathetic ear.

"The relationships between the students and teachers." *R. Matthews*

"The friendliness of most students and staff." *J. Finnegan*

"Caring atmosphere. It's obvious the students like their school and have pride in it." *R. Wise*

"The unique element here is caring! Sure, times are tough and people sometimes petty, but above all the minor problems, the general population, both student and teacher, cares about what happens here. It is not a paycheck or a social requirement, it's a devotion with love and caring for what goes on." *J. Coon*

"A closely knit faculty." *G. Chamberland*

"WHAT IS YOUR REASON FOR TEACHING AT COLCHESTER HIGH?"

"I like the friendly atmosphere, clean building and fair treatment of students and teachers." *I. Raymond*

"They will bury me below the C.H.S. track. I am tied to Colchester." *A. Kish*

"I enjoy working with this faculty. Each faculty member pulls his own weight and works well with one another." *H. Pierce*

"Every year there is a new challenge to be met—a new course to teach or a curriculum idea to implement." *T. Fitzgerald*

"I continue to teach at Colchester because there is room for professional growth, there is support from the Administration in discipline and curriculum, and I have an opportunity to work with high school students with whom I can develop mutual respect." *V. Moore*

"The friendliness and professionalism of the administration and faculty." *P. Jones*

"Administration and teachers are excellent and very concerned about the students." *R. Wise*

"I enjoy working here more than any other place I could imagine." *B. Walsh*

"I'm still here because the students and teachers have the kind of close relationships that is very rare these days." *B. Blanchette*

"I enjoy working with my department. We have the freedom to develop new curricula and share ideas freely." *L. Parren*

"WHAT, TO YOU, MAKES COLCHESTER HIGH DIFFERENT FROM OTHER SCHOOLS?"

"Interested concerned students who, for the most part, care about their work." *F. Allyn*

"Atmosphere is warm and friendly." *W. Cathcart*

"Rapport of faculty members with students." *S. Mead*

"The students, the effort of John Grace-Bob Burke-the teachers' attitudes-People make the school, not mortar and brick." *R. Knisley*

"Excellent atmosphere and working environment." *C. VanKleeck*

"I think that CHS students feel that this is really their school, and they are proud of it." *J. Devino*

"Pleasant atmosphere." *L. Bright*

"There is a definite feeling of caring and respect between teachers and students." *R. Wise*

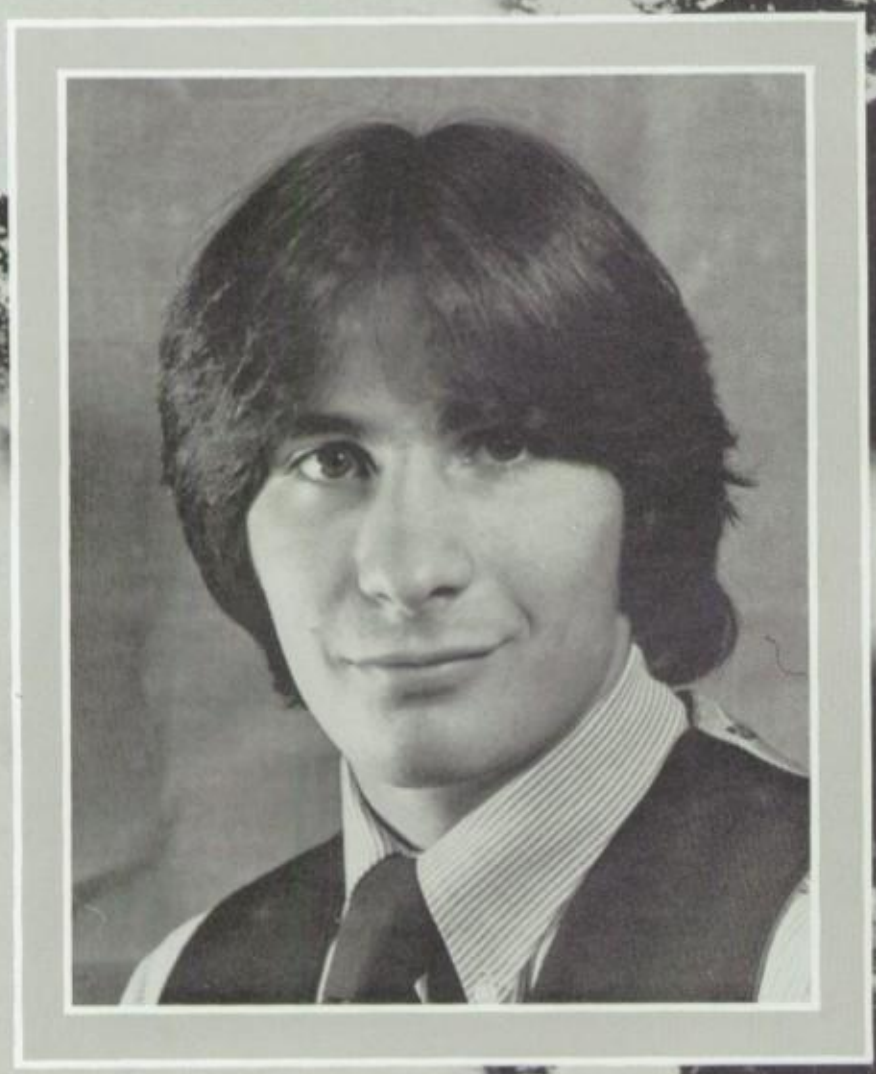
IN MEMORIAM



Anthony James Kingsbury
1966-1984

Last night hustle goin' down in the town
A one-way street, going up the down
They say we're crazy, raising hell like we do
The minutes may be many, but the days too few.

Trouble's coming without control
I'll stall them and let you go
My lungs and legs are fast and strong
I'll catch up before too long
We'll resist till we reach the dawn.

—Kevin Arnold

THOUGHTS ABOUT TONY KINGSBURY

By Tony in first grade
1972

I wish that I . . . could have a fun time. I hate not to have any fun.

My chief worry . . . if I go and play.

Girls are . . . very fun to play with.

It makes me sad . . . to hurt people.

If I only had a bike . . . there are times when I could go out by myself on a bike.

I fear . . . to hope to die happily.

By Galen Jaques and friends
1984

Tony loved to have a good time. He was a very smart kid who had a fast-paced lifestyle.

He loved to participate in sports whenever possible.

He was a wild womanizer!

He respected his parents and did what they said; he respected his friends and was always willing to help when he could.

He tried to be as independent as he could. Tony was his own master; he marched to the beat of a different drummer.

Tony had a zest for life—
he lived life to the fullest
